## **Airtight** | SEED AND GRAIN INDUSTRY SOLUTIONS

- Dust extraction and collection
- Ductwork and flexible duct
- Drying, handling and storage

**Custom designed solutions utilising  
off the shelf product**

## REVERSE AIR DUST COLLECTORS

- Low Energy
- High Efficiency
- Low Maintenance
- High Reliability

Proven to be an effective dust collector for seed and grain applications.

## T-TYPE DUST COLLECTOR

The best low budget dust collector on the market.

- Simple
- Low cost
- Top entry
- Reliable

The best performance/cost ratio of any dust collector in its market segment. The T-type dust collector features a top entry design extending the life of the bags and reducing maintenance.

## PULSE JET CARTRIDGE DUST COLLECTOR

- Modular Design
- Compact Size
- High Efficiency
- Proven Performer

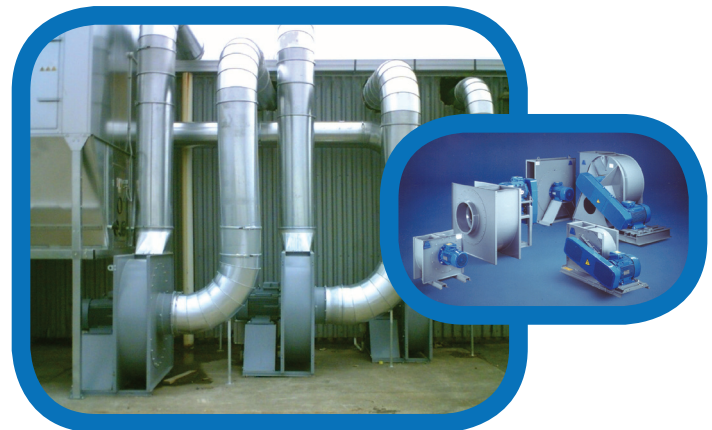

The Pulse jet dust collector from Airtight Solutions is suitable for fine dusts and powders and is a proven industry performer.

## CYCLONES

- Rugged
- Simple
- Low maintenance
- Low cost

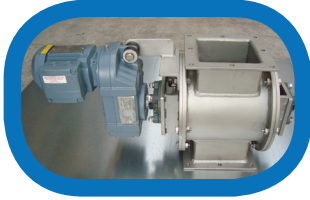

Cyclones remain a viable option for many applications. (despite lower dust collection efficiency than baghouses).

## FANS

- Tough & reliable
- High efficiency & low running costs
- Rugged
- Quiet & self cleaning impeller

Different impeller designs to suit different applications. We normally supply compatible variable voltage, variable frequency drives that enhance system efficiency and provide power savings.

### ROTARY VALVES

- Large volumes
- Low or high pressure

We supply a large range of valves for all purposes. Our Seed & Grain industry valves are specifically designed for high bulk/ low density waste.

### DRYER EQUIPMENT

- Designed and manufactured by Airtight Solutions
- Can be customised to your requirements

We supply heating and ventilation equipment for all sorts of grain dryers. Up-grading these systems can enhance existing dryer performance.

### DUCTWORK

- Modular
- Large size range
- Extensive accessory catalogue
- User friendly

Our Quick Fit ductwork clips together quicker and easier than any other product on the market - reducing your cost of installation.

### PNEUMATIC CONVEYING

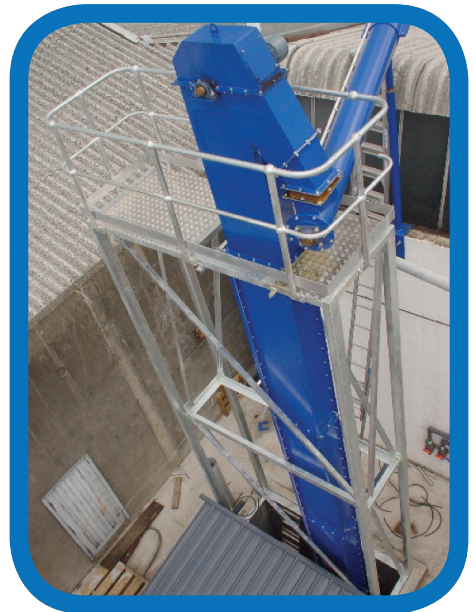

- Pipeline
- Divert valves
- Reception hoppers
- Blowers
- Silo vent filters

### FLEXIBLE DUCT

- Top quality
- Best price
- Best range
- Top value

Anti-static polyurethane (3 weights Low, Med, High) Thermoplastic rubber, Ethyl polyurethane, Metal Flex.

### MECHANICAL CONVEYING

- Bucket elevators
- Screw conveyors
- Drag chain conveyors
