utilising off the shelf product.**

REVERSE AIR DUST COLLECTORS

The Wood Industry Standard.

- Low energy
- High efficiency
- Low maintenance
- High reliability
- Modular and expandable in design

Proven in more installations than any other brand. Airtight has made the Reverse Air Dust Collector the wood industry standard.

S-TYPE DUST COLLECTORS

The best low budget dust collector on the market.

- Simple
- Low cost
- Reliable

The best performance/cost ratio of any dust collector in its market segment. High resale value. Demand for these units mean that we are always willing to offer a trade-in.

DUCTWORK

- Modular
- Large size range
- Extensive accessory catalogue
- User friendly

Our Quick Fit ductwork clips together quicker and easier than any other product on the market – reducing your cost of installation.

FLEXIBLE DUCT

- Top quality
- Best price
- Best range
- Top value

Anti-static polyurethane (3 weights Low, Med, High)
Thermoplastic rubber
Ethyl polyurethane
Metal Flex

CYCLONE

- Rugged
- Simple
- Low maintenance
- Low cost

Cyclones remain a viable option for many applications. (despite lower dust collection efficiency than baghouses).

SPRAY BOOTHS

Options include:

- Modular or custom design
- Overspray filters
- Flame proof motors
- Booth heating

ROTARY VALVES

- Large volumes
- Low or high pressure

Large range of valves for all purposes. Our wood industry valves are specifically designed for high bulk/low density wood waste.

FANS

- Tough & reliable
- High efficiency & low running costs
- Rugged
- Quiet & self cleaning impeller

Different impeller designs to suit different applications. We normally supply compatible variable voltage, variable frequency drives that enhance system efficiency and provide power savings.
